

HOW TO USE OPPOSITES TO EXPAND VOCABULARY IN SPANISH?

Remember to never miss an opportunity to learn or reinforce the learning of a word with one or even two more. It is not about learning many at the same time, but with some connection to make learning more solid and also, at the same time, expand vocabulary. Opposites are an amazing strategy.

Match the adjectives that appear in the two columns and that have an opposition relationship:

Apático
Frívolo
Minucioso
Permisivo
Espontáneo

Sensato
Estricto
Reservado
Superficial
Activo
