

LEARN HOW TO KNOW TRANSPORTATION WORDS IN SPANISH

When you learn matching vocabulary, don't miss the opportunity to, through any strategy, learn more than a single word. Remember each word is part of a small family, and there are different ways to connect one word with another. In this exercise you can do it by association.

Match up the means of transport with the words related to them:

El barco
Ship

El aeropuerto
Airport

El metro
Subway

La estación
Station

El autobús
Bus

El parquin
Parking lot

El avión
Plane

El puerto
Harbor

La moto
Motorcycle

La parada
Stop

Spanish in action
