

INTERNET, WHAT IS TRUE AND WHAT IS A LIE?

The world of technology is very broad and very complex, and so is its nomenclature. It is true that we do not need to be experts in technological vocabulary, but the most basic one is worth knowing. In this exercise we make affirmations with the word that is most common to all of us and in all languages today.

Say whether the following statements about Internet use are true or false. Write *Es verdad* or *Es mentira*:

Muy poca gente tiene internet: _____.

Normalmente se conectan en locutorios: _____.

Mucha gente compra por internet: _____.

La banca en línea te permite gestionar tus cuentas a través de internet:
_____.

Con internet en el móvil puedes conectarte desde diferentes lugares:
_____.
