

DANGEROUS PROFESSIONS

The vocabulary and the associations we make with it. This is one of the strategies we always prefer to recommend when learning vocabulary.

Never try to learn a word isolated from context or from another word. Never waste the moment to learn just one word, but always do it together with one or two others we can associate with them.

Mach up in these two columns these dangerous professions with the objects used in them:

Policía

Bombero

Minero

Escalador

Piloto

Arnés

Avión

Pico

Manguera

Porra

Spanish in action
