

### TRUE OR FALSE? WHAT YOU HAVE TO KNOW IF YOU GO TO A BAR

Those who learn a language do so not because they want to keep it in their collection of knowledge, but rather to communicate with people who have their cultural world talking in that language. So, it will always be understood, in schools, in the city, in communities of particular interests (business, art, cooking...) that if someone is able to speak a little in that second language, their interest in exploring the cultural world is expressed through it.

Knowing the conventions of that world is part of knowing its linguistic system. Say whether these statements about the Spanish and tapas are true or lie.

-Las tapas se toman para desayunar \_\_\_\_\_  
(Tapas are eaten for breakfast)

-Cada persona pide una tapa y se come su tapa \_\_\_\_\_  
(Each person asks for a tapa and eat it)

-Cuando hay que pagar la cuenta se divide entre los comensales \_\_\_\_\_  
(When you have to pay the bill, it is divided among the group)

-Solo se toman tapas en Madrid y no en el resto de España \_\_\_\_\_  
(Tapas are only eaten in Madrid and not in the rest of Spain)

-Para acompañar las tapas piden normalmente una cerveza o un refresco \_\_\_\_\_  
(To accompany tapas you usually ask for a beer or a soft drink)
